DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 4-6, and 8-23, drawn to a kit and method for detecting or measuring an analyte having bivalent or higher binding capability.

Group II, claim(s) 2, 6, 7 and 24, drawn to a kit for detecting or measuring an analyte A having bivalent or higher binding capability to a ligand L3 constituting part of a protein P.

Group III, claim(s) 3, 22 and 25, drawn to a kit and method for detecting or Measuring an analyte a having bivalent or higher binding capability.

The inventions listed as groups I, II and III do not relate to a single general inventive Concept under PCT Rule 13.1 because, under PCT Rule 13.2 they lack the same or corresponding special technical features for the following reasons: Group I, Claims 1, 4-6, and 8-23 involve a receptor I represented by a compound L1-B1-R1-M whereas Group II, claims 2, 6, 7 and 24 involve a receptor I represented by a compound P-M comprising the protein P bound to a marker M. Also, Group II involves that receptor II is represented by a compound P-B2-R2-B3 or L3-B2-R2-B3 and Group I does not require this limitation. Group III, claims 3, 22 and 25 involves receptor II

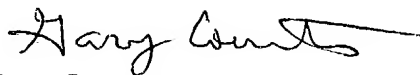

represented by a compound L2-B3 and inventions I and II do not require these limitations. Therefore, there are three different kits and methods using different compounds and thus there are three different inventions.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
